HONORS DAY

HONORS DAY is observed annually as an occasion upon which the University of Illinois gives public recognition to those students who excel in scholarship. The names of the students who are being honored are printed in the program that is prepared for this Convocation. Recognition of superior scholarship is based on the student's academic accomplishments as a full-time student in the previous four quarters–spring, summer, fall, and winter.

The students whose names appear in this program are in two categories: those who have won recognition by having qualified for the Dean's List for the spring semester, 1965, fall quarter, 1965, and winter quarter, 1966, with exception that in the case of freshmen and the first resident year of transfer students the honors award is to be based upon the grades for two quarters only; and those who have qualified for University Honors (Book of Academic Honors).

The general Senate rules for recognition of honor students and the rules of procedure by which such students are selected appear on the last pages of this program.

AMERICA, THE BEAUTIFUL

O beautiful for spacious skies
For amber waves of grain
For purple mountain majesties
Above the fruited plain.
America! America!
God shed His grace on thee,
And crown thy good with brotherhood
From sea to shining sea.
O beautiful for patriot dream
That sees beyond the years
Thine alabaster cities gleam
Undimmed by human tears.
America! America!
God shed His grace on thee,
And crown thy good with brotherhood
From sea to shining sea.

— Katharine Lee Bates

UNIVERSITY HONORS (BOOK OF ACADEMIC HONORS)

The following students have been awarded University Honors. Eligibility requires: (1) that a student have at least a 4.5 cumulative average for all work taken at the University, excluding required service courses in physical education, through the quarter prior to his graduation; and (2) that, on the basis of his cumulative average, he rank in the top three per cent of the students in his college who will graduate when he does. Annually these names will be recorded in the Book of Academic Honors.

EDMUND J. JAMES SCHOLARS

Students chosen to participate in the all-University Honors Program are designated as Edmund J. James Scholars in honor of one of the University's most distinguished scholar presidents. Entering freshmen are selected on the basis of high school rank, test scores, and high school recommendations. Resident students, until they have earned more than five quarters of credit, are selected on the basis of grade-point average and faculty recommendations. Between three and five per cent of the student body are designated as Edmund J. James Scholars.

HONORS DAY RECOGNITION

In the spring of each year, the University holds a convocation of students and members of the faculty, with an address by a distinguished speaker, to give public recognition to its superior students. The printed program is designated the Honors Day Book and contains the names of all students receiving academic recognition from the University. Also listed are students elected to honorary and professional societies which meet the standard of scholarship approved by the Faculty Honors Council.

Recognition of superior scholarship is based on the student's academic accomplishments as a full-time student in the previous four quarters–spring, summer, fall, and winter. Students whose names have appeared on the Dean's List (see below) of their college for at least three of the four quarters will be listed in this program book. However, if a student has been in residence during all four of the quarters referred to above, in order to be listed in this program, he must have a cumulative grade-point average of 4.0 for those four quarters, in addition to having been on the Dean's List for three of the four quarters mentioned. There is one exception; a new freshman or transfer student who enters in the fall quarter may be listed in the program if he has been on the Dean's List of his college for both the fall and winter quarters prior to the Honors Day Convocation. This recognition is also recorded on the student's University transcript as "Honors Day Recognition (year)."

UNIVERSITY HONORS PROGRAMS

Successful performance for one year as an Edmund J. James Scholar is recognized by the Faculty Honors Council and shall entitle the student to be listed separately in the program. There is one exception; a new freshman or a transfer student who enters in the fall quarter may be listed in the program if he has been a James Scholar for both the fall and winter quarters prior to the Honors Day Convocation. The recognition is also recorded on the student's University transcript as "Edmund J. James Scholar (year)."

UNIVERSITY HONORS: BOOK OF ACADEMIC HONORS

Sustained academic achievement is recognized by recording the student's name in the Book of Academic Honors. Eligibility requires: (1) that a student have at least a 4.5 cumulative average for all work taken at the University, excluding required service courses in physical education and basic military science through the quarter prior to his graduation; and (2) that, on the basis of his cumulative average, he rank in the top three per cent of the students in his college who will graduate when he does. A transfer student must have earned sixty

or more quarter hours at the University of Illinois and have an Illinois cumulative average and a total cumulative average as high as the lowest one listed for students who have completed all of their work at Illinois.

THE DEAN'S LIST

The name of every full-time student (as defined under "Honors Day Rules of Procedure") who has achieved a grade average of 4.0 or better for a given quarter is placed on a list prepared for the dean of his college. This list is publicized within the University and is sent to the Office of Public Information for distribution.

HONORS DAY RULES OF PROCEDURE

(1) Averages are computed to three decimal places by the Office of Admissions and Records. Grades considered for honors are those earned in terms in residence as follow: (a) spring and summer quarters, previous year; (b) fall and winter quarters, current year; (c) Book of Academic Honors candidates are based upon all quarters and/or semesters prior to the one in which they graduate. Grades used in determining honors for students shall be those on file in the Office of Admissions and Records.

(2) New students (freshmen, transfer students, and readmitted students) are considered after two quarters provided they have enrolled for only two quarters since last honors consideration.

(3) Only full-time students are considered in determining honors. A full-time student must complete at least twelve academic hours, excluding service courses in physical education, basic military science courses, courses with excused or deferred grades, and courses completed by means of an examination in which a grade of *Pass* is recorded. To be considered for honors a student must maintain a grade-point average of 4.0.

(4) Unclassified students are not considered.

(5) Special examinations are disregarded in computing the status of students for honors.

(6) A first-semester thesis course in which the grade is deferred is counted toward the minimum schedule requirement in rule 3 above, but is disregarded in computing the average.

(7) Minor changes may be made in these Rules of Procedure from time to time as occasion demands.
